

In the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1 1. (Currently Amended) Apparatus for generating carbon monoxide
2 comprising an enclosure having an inlet and an outlet at least one of
3 which is provided with means restricting air flow from the inlet to the
4 outlet, a container located within the enclosure, said container containing
5 a material consisting ~~essentially~~ of carbon and arranged to maintain said
6 carbon material in thermal contact with an electrical heating element, and
7 means for causing air to move from the inlet to the outlet.

- 1 2. (Original) Apparatus according to claim 1 and further comprising a
2 portable power supply for the electrical heating element.

- 1 3. (Original) Apparatus according to claim 2, wherein the portable power
2 supply is one or more batteries.

- 1 4. (Previously Presented) Apparatus according to claim 1, wherein the
2 means to cause the air to move is a fan.

- 1 5. (Original) Apparatus according to claim 2, and comprising means for
2 controlling the amplitude or duration of the current supplied by power
3 supply.

- 1 6. (Previously Presented) Apparatus according to claim 1, wherein
2 restricting means comprises a baffle member provided with one or more
3 holes.

- 1 7. (Original) Apparatus according to claim 1, wherein the container is readily
- 2 removable from the enclosure so as to enable replacement of the carbon
- 3 material.
